

CAPSGW ANNUAL SPRING SYMPOSIUM

Updates In Autism Spectrum Disorders: From Cutting Edge Science To Clinical Medicine

PRESENTED BY

Child and Adolescent Psychiatric
Society of Greater Washington

SATURDAY, MARCH 3, 2011

8:00 am—3:30 pm

Up to 6.25 CME credits available.

Up to 6 CEU units available.

Updates In Autism Spectrum Disorders:

Saturday, March 3 Agenda

- 8:00 am Program Registration/Continental Breakfast
- 8:30 am Introductions
- 8:45 - 9:30 am *Resting-State Functional Imaging Dissection of Brain Functional Circuitry in Autism Spectrum Disorders*, F. Xavier Castellanos, MD
- 9:30 - 9:45 am *One Boy's Story: A parent perspective*
- 9:45 - 10:30 am *Assessment and Management in Autism Spectrum Disorders*, Dan Shapiro, MD
- 10:30-10:45 am Break
- 10:45 -12:10 pm *Speech-Language Intervention*, Sabra Gelfond, MA
- Behavior Intervention*, Robin Allen, PhD
- Medication Management of ADHD in Young Children with Autism*, CT Gordon, MD
- 12:10 -12:30 pm Questions to the panel
- 12:30 -1:30 pm Lunch
- 1:30 – 3:15 pm *Developmental Trajectories and Interventions through Late Adolescence: A Case Study in Autism*, Lance Clawson, MD
- Educational, Behavioral, and Emotional Challenges in the School Setting*, Monica Adler Werner
- Psychotherapy and Autism*, Steven Kane, PhD
- Medication Management Options and Decision Points*, CT Gordon, MD
- 3:15 - 3:30 pm Questions to the panel
- 3:30 - 3:45 pm Break
- 3:45 – 4:30 pm *Three Perspectives on the Social Life of Autism: Culture, Education and Parenting*, Roy Richard Grinker, PhD

Learning Objectives

1. Attendees should be able to understand complex diagnostic issues, including novel brain imaging approaches, related to autism spectrum disorders.
2. Attendees should be able to describe multimodal treatments over the course of developmental trajectories in autism spectrum disorders.
3. Attendees should be able to appreciate the complex interplay between biological, psychological, and cultural phenomena in autism spectrum disorders.

From Cutting Edge Science To Clinical Medicine

Speakers

Robin D. Allen, PhD, is a Behavioral Specialist who has been providing services to individuals and their families in the Washington, DC metropolitan area for over 30 years. She has served as a Behavior Specialist for government and community organizations, public and private schools, residential settings, community-based centers, hospitals, and families with relatives who have behavioral and special learning needs. Dr. Allen's unique model of service delivery includes on-site treatment in the home, school or community setting.

F. Xavier Catellanos, MD is a pediatrician and child and adolescent psychiatrist who has been involved in brain imaging studies for the past two decades. Formerly head of the ADHD Research Unit at NIMH in Bethesda, he now heads the Institute for Pediatric Neuroscience at NYU Langone Medical Center and the Nathan King Institute for Psychiatric Research, both in New York State. He and his colleagues are among the pioneers in the application of novel resting-state methods to the challenge of functional brain imaging in autism and related conditions.

Lance D. Clawson, M.D., F.A.A.C.A.P. graduated with honors from both the University of Southern California and Tufts University School of Medicine. He received his post-doctoral training in general Psychiatry and Child and Adolescent Psychiatry at Walter Reed Army Medical Center in Washington, D.C. After completing his post-graduate training, Dr. Clawson served as the Chief of Child & Adolescent Psychiatry and then the Chief of Psychiatry for the US Armed Forces in the Republic of Korea. Since returning to the U.S. he has held a number of positions to include Director of Child & Adolescent Psychiatric Consultation Liaison and Director of Psychiatric Training at Walter Reed Army Medical Center. After leaving the Army he served as Medical Director at the Division of Child & Adolescent Psychiatry at the University of Maryland at Baltimore School of Medicine. He is currently in private practice in Cabin John, Maryland.

Sabra Gelfond, MA is the Executive Director of the National Speech/Language Therapy Center. Early into her working life, while at the Ivymount School, Ms. Gelfond began to cultivate her interest surrounding children with special needs. She went on to develop the innovative MAP program; an early, computer-based ABA program designed to teach and train parents and therapists the best methods of working with children presenting severe learning disabilities such as Autism Spectrum Disorder. Under her direction and guidance, the National Speech/Language Therapy center received the Best of Business in Bethesda award in 2010 for unparalleled service in speech pathology. Ms. Gelfond has graduate degrees in both Education and Human Development and in Speech/Language Pathology from George Washington University,

CT Gordon, MD completed residencies in pediatrics, general psychiatry, and child psychiatry. Following his training, he went on to do clinical research on autism and childhood onset psychosis in the Child Psychiatry Branch of the National Institute of Mental Health. He is currently on the faculty of the University of Mary-

land School of Medicine, Department of Psychiatry and in fulltime private practice in Rockville, MD. He and his wife Edie, have three grown children, and their middle son, Zak, has autism. They recently founded Haven Universe, a nonprofit organization, supporting individuals with disabilities and their families.

Roy Richard Grinker, PhD is Professor of Anthropology, Human Sciences and International Affairs at the George Washington University. He is Editor-in-chief of *The Anthropological Quarterly*, and Director of the George Washington University Institute for Ethnographic Research. He has made numerous appearances on national and local television and has been quoted and featured extensively in print media. Dr. Grinker is a jury member for the Science in the Media Award given by the American Association for the Advancement of Science (AAAS), and in 2010 received the American Anthropological Association's highest honor for communication of anthropology to the public, the Anthropology in the Media Award. Previous recipients include Jane Goodall and Stephen Jay Gould.

Steven Kane, Ph.D. is a psychologist in both private practice and the Model Asperger Program of the Ivymount School. He received his doctoral training in developmental psychology at the Catholic University of America, completed a post-doctoral fellowship in clinical research at the Harvard Medical School, and retrained in clinical psychology at the George Washington University. Dr. Kane specializes in the treatment of children, adolescents and adults with autism-spectrum and related disorders.

Dan Shapiro, M.D. received his Medical Degree in 1982 from George Washington University. He did his Pediatric Residency Training at Children's Hospital National Medical Center in Washington, D. C. After thirteen years of practicing General Pediatric and Adolescent Medicine in Silver Spring, Maryland he has exclusively practiced Developmental and Behavioral Pediatrics in Rockville, Maryland. In addition to office and school-based patient care, he has served as consultant to the DC Public Schools Autism Program and provides parent group behavior management training for children with special needs. Dr. Shapiro is Board Certified in Pediatric and Adolescent Medicine, a Fellow of the American Academy of Pediatrics, a Member of the Society for Behavioral and Developmental Pediatrics and an Assistant Clinical Professor at The George Washington University School of Medicine.

Monica Adler Werner is the Director of the Model Asperger Program (MAP) at the Ivymount School. In that capacity she has spearheaded the development of a social learning curriculum that emphasizes problem solving, self advocacy and self regulation. She is also a collaborator with Children's National Medical Center's Center for Autism Spectrum Disorders in developing a curriculum to enhance cognitive flexibility and problem solving in students with Asperger Syndrome. This curriculum has been piloted at MAP and an IRB peer reviewed process is assessing efficacy of the intervention. In addition, Monica is a co-founder of Take2 Summer Camp, a program designed to develop social thinking, problem solving and skills. She also serves as an *ad hoc* public reviewer of NIMH autism grants.

TO GUARANTEE YOUR PLACE AT THE SYMPOSIUM, PLEASE COMPLETE AND RETURN THIS REGISTRATION WITH A CHECK PAYABLE TO CAPSGW TO:

CAPSGW Spring Symposium
c/o D. Berman, Executive Administrator
7621 Mary Cassatt Drive
Potomac, MD 20854

Fee: Payable by check only to CAPSGW.
Includes materials and lunch.

CAPSGW Members

- Early Bird:* Prior to February 17: \$135
- February 18 to 26: \$155
- After February 27 and on site: \$175

Non Members

- Early Bird:* Prior to February 17: \$155
- February 18 to 26: \$175
- After February 27 and on site: \$195

Medical Students, Residents, Fellows: \$45

We will be unable to refund registration for cancellations after Friday, February 24, 2012.

Professional Credits: CME/CEU

Accreditation Statement: The Georgetown University Hospital is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement: The Georgetown University Hospital designates this educational activity for a maximum of 6.25 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent to their participation in the activity.

Please note that CME certificates will be mailed in late July.

The Maryland Board of Social Work Examiners certifies that this program meets the criteria for 6 (six) credit hours of Category I continuing education for social workers licensed in Maryland.

This educational activity is approved for up to 6 (six) hours of category I continuing education units. Participants should only claim those hours actually in attendance.

Symposium Location

Suburban Hospital
8600 Old Georgetown Road
Bethesda, Maryland
